

# CONTOUR

## Who's it for?

ESSENTIAL CONTOUR is our complete meal, specifically formulated for:

- Dogs that are overweight or have a reoccurring tendency to be overweight.
- Castrated or sterilized dogs, as these interventions have an effect on dietary requirements.

Our ingredients are of the highest quality; a quality you'll learn to expect from ESSENTIALS. The meal follows our BOF principle and is grain-free.

## BOF - A sensation within pet foods

Behavioral Optimizing Foods (BOF) is the principle honoring the many advantages of keeping the blood sugar levels stable throughout the day. Our high fresh meat content and the low preparation temperature means your dog gets exceptional nutritional values vs. mass-branded pet foods. The results with BOF are breathtaking. Serving ESSENTIALS positively will affect the mental balance of your dog. Some report seeing a dramatic transformation in the behavior, others note a smaller change, however improvement is always recorded.

## Is this your first bag of ESSENTIALS?

With the first bag of ESSENTIALS comes a nutritional lifestyle change. Gradually phase in ESSENTIALS over 4-7 days, or make the change from one day to the next which works equally well. The most important point is to adjust daily portions to suit your pet. Overfeeding will result in softer stools.

We therefore advise that you spend the first 2-3 weeks identifying the correct portion size. When your pet's stools are solid, and your pet feels satisfied, you have found the correct portion

size. All you have to do now is enjoy all the benefits of ESSENTIALS.

TIP: Start by feeding your pet 10% less than usual and adjusting from there. You are always welcome to contact us for feeding advice and guidance.

## Best before

Date, time and unique production number can be found at the top of the bag.

## Storage & packaging

The food should be stored in the bag, in a cool, dry place (5-18 °C). Away from direct sunlight, and with the zip carefully closed. This will ensure the last meal tastes as good as the first. The 10kg packaging is 100% recyclable plastic and should be disposed of with other soft plastics.

## Words of advice

When a dog is castrated or sterilized, its mental focus and hormone balance changes. This affects the dog's nutritional needs. CONTOUR will give your dog a natural fuller feeling; reducing overeating which leads to obesity. Overweight dogs will lose weight on CONTOUR, assuming the owner follows our recommended serving quantities. Once the ideal weight is reached, continue serving at a slightly increased portion size.
